An exceptional teaching tool, our fixed slide specimens include intestinal parasites, protozoa, hemoparasites, ectoparasites, & fungi; each slide is inspected prior to shipping. Our parasite suspensions can be used to create "wet" slide preparations resembling clinical samples. Should you need a specimen not listed contact us for availability. All species may not always be available; quantities may be limited for specimens in short supply.

| Protozoa Slides | | | | | |

Teaching Slide Set

Prestained & permanently mounted, these live specimens are perfect for hands on instruction of basic culture techniques. In addition, they can be maintained for later use by inoculating nutrient agar slants. Set includes one of each of the following common organisms. (Specimens subject to change based on availability)

| | | | |
|---|-------------------|-------------|----------------------------------|
| Microsporium canis | Otodectes cynotis | Babesia spp | Giardia lamblia; Cysts & Trophs |
| Microsporium gypseum | Sarcoptes scabiei | Eimeria spp | Rhipicephalus sanguineus |
| Trichophyton mentogrophytes (Microconedia forms only) | | | Dirofilaria immitis microfilaria |
